Search Notes

Dear Scott Beliveau,

Please find attached the search results for 09475447. I used the search strategy we discussed.
I searched the standard Dialog files, IEEE, Inspec, Proquest, and the internet.

If you would like a re-focus please let me know.

Thank you.

If more than one search is submitted, please prioritize searches in order of need.
▪▪

Please provide a detailed statement of the search topic, and describe as specifically as possible the subject matter to be searched. Let us know what you already have and so do not need. Include the keywords, synonyms and meaning of acronyms. Define all terms that may have a specific meaning. Please attach a copy of the background, abstract, claims and other pertinent information.
Please state how the terms or keyword strings should relate to one another.

Title of the Invention _Ratings control system with temporary override capability and conflict Resolution_

Inventor(s) _Feature_

David Lynch _____

_____

Earliest Priority date to be used _12/31/99_ _____

Looking for parental control system (v-chip etc.) which includes the ability for the parent to override viewing Restrictions. In connection with providing the ability to override settings the system Resolves conflicts between overrides which may occur by using either the most or least Restrictive criteria. For example a parent overrides a viewing limit and allows the child to watch 1 Hr of TV more Subsequently the parent overrides a Rating limit to allow the child to watch a particular R rated program that lasts 2 HRs. A conflict is ~~detected~~ detected since the child has only been allowed to watch 1 HR but the allowed show is 2 HR. The system Resolves –

****

The conflict by either Relaxing the viewtime Restriction or Blocks the show.

Detailed Description
... In accordance with the present invention,
  interactive television systems are provided that help
  manage potential **conflicts** that arise when the requested
  delivery of video-on-demand or video recorder content
  might...

...reminder, a scheduled recording, a pre
  ordered pay-per-view program or a time-based **parental
  control** setting. Interactive **television** functionality
  may be supported through the use of interactive
  television applications that are implemented on user
  equipment such as cable set-top boxes, personal video...

...computers, satellite integrated
  receiver decoders (IRD) boxes, interactive televisions,
  or other suitable devices. The interactive **television**
  applications may be used to provide video recorder
  functions, video-on-demand functions, and program...

...programs, may establish times at
  which certain programs will be automatically recorded,

9 The method defined in claim 1, wherein
the user equipment comprises user television equipment...

...from the
group consisting of: a program reminder setting, a
scheduled recording setting, and a **parental   control**
setting

18 The user equipment defined in claim 16

wherein the requested on-demand content...

...user equipment defined in claim 16
wherein the time-based setting is a television
programming **parental   control** setting and wherein the
control circuitry, user input interface, and display are
further configured to use the interactive **television**
application to provide the user with an option to
override the **parental   control** setting to resolve the
conflict .

24 The user equipment defined in claim 16
wherein the time-based setting is a...

...the
control circuitry, user input interface, and display are
further configured to use the interactive **television**
69
application to provide the user with an option to cancel
the requested on-demand content to resolve the **conflict** .

25 The user equipment defined in claim 16
wherein the control circuitry, user input interface...

Detailed Description
... display, tuner, remote
  control interface, light-emitting diodes,
  communications channels, etc. This may lead to
   conflicts . For example, if a non-guide application is
  running when the program guide application would
  normally have issued a reminder (e,g., for an upcoming
   television event), the user may not be able to receive
  the reminder. Moreover, the relatively high-level
  resources of the program guide application (such as
   parental   **control** , program guide database access
  functions, etc.) have been unavailable to non-guide
  applications.

  It is...

  Detailed Description

Detailed Description
... the parent selects the "Block[Unblock" button 130 provided in region
  104 thereby commanding the **parental   control** system to block the
  example **television** program. Alternately, if the parent has requested a
  television program, and that program is blocked by the **parental
  control** system, the parent may enter a password to **override** the block
  and view the program. The information appliance may then display the
  television program within the **television** viewer region or window 132
  of the user interface 100.

  If the parent thereafter determines...for the content themes found to be
  objectionable are blocked. As an additional means of **parental   control**
  , the parent may be given the option of completely
  16
  blocking certain themes, such as violence, regardless of the content
  theme rating of a given program. This feature would **override** the
  block/unblock access determined via the selection of example content of
  the present invention...

...select the "Cancel" button 516 to cancel his or her changes and return
  to the **television** window 132 without adjusting the parental lock
  leveM.' Additionally, a button ("Settings") 518 may be...

  Detailed Description
  Claims

English Abstract
  A method and apparatus for exercising access control over television
  programs using a **parental   control** interface that has different
  functions are provided. The method requires a password to enter into a
  master mode for obtaining unlimited access to all the functions of the
  parental   control interface. Once in the master mode, the user may
  enter a criterion for blocking a **television** program from being viewed
  or recorded or the user can **override** an already blocked **television**
  program. Once a master password is entered, the system is in a Master
  Password mode until the **TV** is turned off, the user exits the VChip
  Plus+ mode, or a certain time delay...

  ...record a program that meets the blocking criterion and the program does
  not meet the **overriding** criterion, a prompt is provided to the user to
  enter the password. Upon entering a...

Detailed Description
... provided, according to a preferred embodiment, an apparatus for
  parental 1 5 control of a **television** receiver. A memory provides
  storage of information relating to **television** programming. A
  microprocessor generates a blocking command as a ftiriction of the
  information stored in memory including a master password. A blocking
  circuit, which passes a baseband **television** video signal to a
  television display, provides blocking of the video signal in response to
  the blocking command. The blocking can be **overridden** by a user-provided
  list in the memory.

  It is understood that other embodiments of...embodiment of the present
  invention is a combination of the V-Chip system and a **parental   control**
   system more oriented around programming by a user for blocking and
  enablingparticulartelevisionprograms.
  SuchaparentalcontrolsystemisdescribedinU.S.Patent...

  ...is an improvement over either system. In the preferred embodiment, the
  user is allowed to **override** the operation of the V-Chip system for
  particular programs contained in user programmable enable **override**

...the password if the selected program meets the blocking criteria and
does not meet the **overriding** criteria; and means for unblocking the
selected program that meets the blocking criterion and does not meet the
overriding criteria so it can be viewed, if the user enters the password
responsive to the...

  Password controlled method for setting blocking and overriding **controls
  on television viewing**

Abstract (Basic):
...   The television **parental** **control** system uses the **Vchip +**
  mode and additional controls. The system is controlled by a remote
  control unit interacting with...

... **Parental** **control** of television viewing...

...Provides extended control of viewing by fine tuning the blocked and
override channel selections...

...If channel blocked by **Vchip** + it may be set as **override** for viewing
(1,2...

...Even if not blocked by **Vchip** + is can be blocked by user (5
...Title Terms: **OVERRIDE** ;

Claim
... path of execution. Embodiments of the invention simplify the execution
  paths of large and complex **programs** into a context graph, using certain
  approximation and generalizations in analyzing the class files of a
  program . A context graph once developed can be queried for the status of
  different nodes and...

...nodes at a certain instance of execution. Embodiments of the invention
  scale well to larger **program** codes, as they statistically represent
  information regarding various execution possibilities that are critical
  for analyzing the **program** , excluding any unnecessary details.
  METHOD AND APPARATUS FOR STATIC ANALYSIS
  OF SOFTWARE CODE
  BACKGROUND OF...

...environments and languages, such as Java,
  involve non-deterministic parallelism. This means that a software
  program 's path of execution for a given input cannot be determined in
  advance (i.e...

...vary from one execution to the next). As a result, the dynamic analysis
  of the **program** is not a good solution to detect all problems that may
  arise at the time of execution, because given perfect tests all **program**

Detailed Description
... of the other option 552 or 554, though both options may be set.

  The notification **settings** interface 500 includes an **override** option
  560 that may be selected to allow the current notification **settings** to
  override any other notification **settings** that have been specified for
  the communications identities corresponding to the item selected in the
  ...
...wish to always provide notification information to a spouse, so the user
  may select the **override** option 560 and specify a **setting** in the
  setting list 530 that dictates that the spouse is always provided with
  notification information. In this case, the **setting** to always provide
  the spouse with notification information **overrides** any other **settings**
  that control how notification information is disseminated to the spouse.
  As another example, a user may specify that no notification **settings**
  are to be sent during the weekend, but a client may wish to be provided
  ...

...information during a particular weekend. In such a case, the user may
  create a notification **setting** that dictates that the client is to be
  sent notification information over the particular weekend and that

overrides any other **settings** for the client. hi one implementation, the system is configured to **detect** notification **overrides** that **conflict** with one another, and to permit the user to resolve the conflict.

In some implementations...

...would allow you to
download music onto a hard drive or a handheld player, potentially
 overriding anti-duplication measures. It is fighting Diamond
Multimedia in the courts to prevent the launch...from. Instead the new
division will focus on 'enhanced
programming' which allows users to access **video** clips such as sports
replays and additional text-based information, including some **limited**
e-comm facilities, mostly relating to programme merchandising. Such
clips would be embedded in the...
...the property of BIB. In August, Elisabeth Murdoch
announced a 'divorce' between the Internet and **TV** , which led to some
contradictory messages from BIB about what its future intentions are.
The...

...UK's second largest cable company with 900,000
subscribers has opted for the Open **TV** system for its commercial
services, the same used by BIB and Sky's digital service. Open **TV** is a
key player in the DVB (Digital **Video** Broadcasters, the body
recommending standards for interactive **TV** - see IM 176), which recently
endorsed Java as the recommended platform for the industry. As Open **TV**
is partly owned by Sun (together with **Thomson**) the owners of Java, the
decision puts the company in a strong position once the DVB's
recommendations are implemented in Europe. The battle among the
competing interactive **TV** platforms looks like being more dramatic in
the US, where standards have yet to be set and where Open **TV** has just
scored its first victory by signing up EchoStar, a satellite company
with 1...its importance.

Sony launch multipurpose DVD player
Sony will release an all-in one DVD **video** and ROM player in
January. The PBD -D50 Discman, a portable device, will cost around...
...the Project X chip (see IM 177), has
announced a brand name for the digital **video** / game platform
technology. The new name 'Nuon' apparently derives from " 'New' in the
sense of...
